

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: February 29, 1996

SUBJECT: **HB 2431 - SB 2752**

This bill, if enacted, will require the Department of Education to provide for workshops in multisensory interactive training for teachers to develop awareness and knowledge of students with attention deficit disorder and hyperactivity, and how to identify and best deal with and instruct such students.

The fiscal impact from enactment of this bill is estimated to be an increase in state expenditures of approximately \$1,225,000. This estimate is based on past experience by the Department of Education's Office of Special Education which has held teleconferences on attention deficit hyperactivity disorder (ADHD) at a cost of \$25,000 per 1,000 teachers. There are approximately 49,000 teachers to be trained (49,000 teachers ÷ 1,000 per class x \$25,000 = \$1,225,000).

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James A. Davenport, Executive Director
